Grym nyhet på Systembolaget 1:a Oktober!

Left Hand Brewing Co i Longmont Colorado introducerar med
Oliver Twist MILK STOUT i Sverige.

Anses vara en av USA's (och världen!) bästa stout och den belönades med
guldmedalj i World Beer Cup 2006.

En fantastisk balans mellan rostad malt & kaffetoner.

Mjölkssockret ger en mjuk & krämig karaktär, en öl att njuta av
på egen hand eller t.e.x till Lamm, såser på grädde, svamp
eller en Cheese Cake !

If you enjoy stouts, you'll love Left Hand Milk Stout. Hell, if you enjoy beer, you'll love Left Hand Milk Stout. It pours a slightly opaque, deep amber to black color with hues of ruby. The aroma is reminiscent of a fine mocha coffee or even rich chocolate milk. The taste opens with hints of sweet coffee and milk chocolate before maturing into a rich, full malty body. We recommend that you get to a state that sells this beer (there are more than 20), and try it immediately because this is quite possibly the best stout in America.
