

AMARO

AMARO CioCiaro

HISTORY & PRODUCTION

History, territory, and tradition. These are the Paolucci Liquor's key words. This factory, whose origins date back to early Nineteenth century, still represents a source of pride for the entire province. It has been awarded many prestigious acknowledgements, from the Gold Medal at the Global Exposition of Rome in 1922 to "Brevetto della Real Casa" in 1934 (an honour conferred in the past by the Italian king to products of very high quality).

Following very ancient recipes, natural and attentively selected ingredients are used to produce Italian liqueurs and distillates, in particular those typical of Central Italy. Tradition and state-of-the-art technologies are fused in the production methods of this fourth generation company, whose target market is the whole world.

SERVE AND COMBINE

Enjoy Amaro CioCiaro straight up, on the rocks or in cocktails.
