

Macken Bryggeri presents True Will, Slussen and Cro-Magnon

September 21, 2016 by Macken Bryggeri AB

Running out of fuel? Feel'er up!

Press Release

This is the third time that Macken Bryggeri is partaking at Stockholm Beer & Whisky Festival. In this occasion Macken Bryggeri presents three ale delicacies to explore further regions of beer flavours and imagery.

True Will - Victorian Christmas Pudding Porter, 8.0% vol.

This limited edition imperial porter was bottled in exclusively 666 Champagne bottles. It is a homage to the English ceremonial magician and occultist Aleister Crowley's work and his doctrine "Thelema" - "*Do what thou wilt shall be the whole of the Law*". This brew is draped in black garments and casted by a Victorian flavouring bric-à-brac; christmas pudding. A Magickal liquid grimoire harmoniously married with oiled notes of raisins, currant, brandy and a gently touch of cinnamon, nutmeg and mystical warming finish.

Slussen - Extra Special Bitter, 5.2% vol.

A fresh and delightful bitter ale for old good memories and an exclusive homage to legendary Slussen in the heart of Stockholm. It has a golden colour, pillowy white head and a splendid hop aroma with a refreshing and well-balanced taste.

Cro-Magnon - Belgian Strong Ale, 7.6% vol.

A special memorial to the Cro-Magnon, the first early European modern humans found [around 43,000 B.C.E.] and to his art legacy, such as the cave paintings in the Lascaux Caves in France. A beautifully balanced beer with an interplay of peach, raisins, figs, caramel and brandy notes. Follow the bottom of the underworld!

Macken beers: True Will, Slussen, Cro-Magnon

About Macken Bryggeri

Macken Bryggeri is a craft brewing company based in Stockholm, Sweden presenting an array of top-quality ale and lager delicacies brewed by Brewmaster and PhD in Brewing Andrés Furukawa.

Our brands have a strong and distinct individuality due to the varied kinds of personal background stories, intriguing cultural themes and imagination married with the uncompromising commitment to beer quality.

Andrés Furukawa is currently brewing the beers himself at Nils Oscar Brewery in Nyköping and at Nordic Kiwi Brewers in Ekerö, Stockholm with the scope of establishing the production facilities in Stockholm in not distant future.

The foundation of Macken Bryggeri strongly lays on our label concept and visuals conceived by Andrés Furukawa and designed by local artist and musician Jonathan Hultén, with a healthy dose of worldwide stylistic influences and a special interest in reflecting Stockholm's own vibe.

The common denominator of our beers is our total dedication to every single input in terms of flavours and visuals complementing each other with the hope of proposing a genuine holistic experience to those souls out there, who appreciate craft brewing and art with expressive authenticity.

This is our take on brewing to those hearts out of fuel. Let us fuel your imagination!
